# 01 Product at a glance

**reID is one secure digital identity for everything.** Sign in without passwords, verify once, pay and get paid to a simple name, chat with verified people, and earn cashback through a legacy network.

| | | | |
|---|---|---|---|
| **1** identity for every app and service | **0** passwords — passkey sign-in | **∞** legacy levels for cashback | **N** industries on one ecosystem |

reidentity.net hero

# 02 Problem & answer

| The problem | The reID answer |
|---|---|
| Dozens of passwords, logins and resets | Passkey sign-in and SSO: one tap, every service |
| Repeated KYC with every company | Verify once (passport + liveness), share proof with consent |
| Long wallet addresses and bank details | Pay and get paid to `name@reid` |
| Strangers and fake profiles in chats | reID Chat with verified people and contact sharing |
| Loyalty points that expire | Real cashback, plus earnings from your legacy network |
| Businesses running separate identity, staff and payout tools | reCorporate: company identity, roles, staff, payouts in one dashboard |

**One line:** Your identity, your login, your wallet and your network — in one passport.

# 03 Audiences

| Audience | Need | Lead message | CTA |
|---|---|---|---|
| Individuals | Simple, safe sign-in and payments | One identity. Zero passwords. | Create your reID |
| Freelancers | Get paid fast, look trustworthy | Verified profile, paid to your name. | Create your reID |
| Businesses / SMEs | Verified company, staff roles, payouts | The financial and workforce operating layer for modern businesses. | For businesses |
| Developers / partners | Login + KYC without building it | Add Sign in with reID in an afternoon. | Contact us |
| Ambassadors | Extra income | Grow the network. Earn as it grows. | Become an Ambassador |

# 04 Positioning & key messages

## Positioning statement

For people and businesses who live online, **reID** is the digital identity passport that replaces passwords, repeated verification and long payment details with one secure, verified ID — and rewards you for using it.

## Taglines

One identity for everything. | Sign in. Verify. Pay. Earn. | Never re-type a password again. | Pay to a name, not a long address. | Verified once. Trusted everywhere. | Every purchase pays you back.

## Message pillars

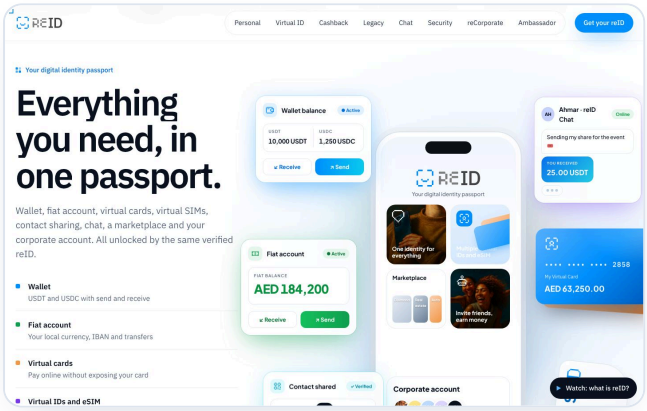

| Pillar | Proof points |
|---|---|
| Simple | Passkey login, one name for payments, one app |
| Secure | Biometrics, device binding, encrypted data, consent per app, no ad tracking |
| Verified | Passport + liveness, Virtual ID card, verified chat |
| Rewarding | Cashback on purchases, unlimited legacy levels, Ambassador income |
| For business | reCorporate dashboard, roles, staff, payouts, legal pathway |

## Tone

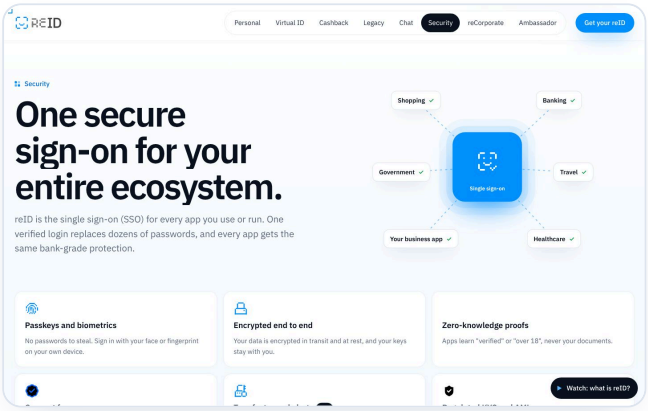

Clear, calm, confident. Short sentences. Say what the user gets. No jargon (avoid "KYC" in headlines, "blockchain", "Web3").

# 05 Capabilities

| Feature | What to say |
|---|---|
| Passkey sign-in / SSO | One tap with Face ID or fingerprint across the whole ecosystem |
| Virtual ID | A verified digital ID card on your phone |
| Verification | Passport + liveness once; share proof, not documents |
| Wallet | Hold, send and receive; pay to name@reid |
| Cashback | Money back on purchases into your wallet |
| Legacy network | Invite people; earn from their activity across unlimited levels |
| reID Chat | Message verified people, share contacts, pay in the same thread |
| Sign in with reID | OAuth 2.0 / OpenID Connect for partner apps |
| reCorporate | Company identity, roles, users, legacy payouts, fiat (coming soon) and crypto |

Everything in one passport

Security & SSO

# 06 Offers

## reID Personal

Free app. Identity, wallet, chat, cashback, legacy.

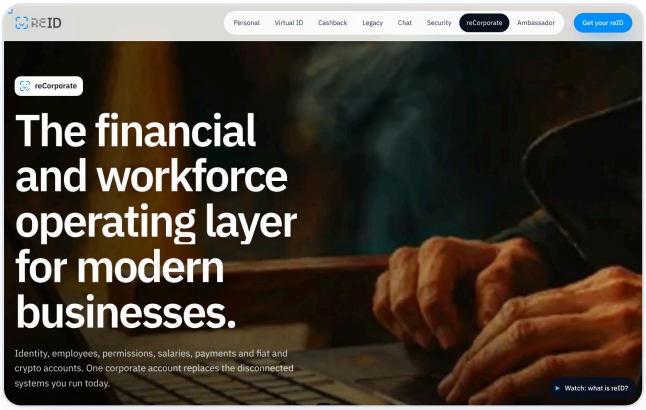

## reCorporate

Business dashboard: verified company, roles, staff, payouts.

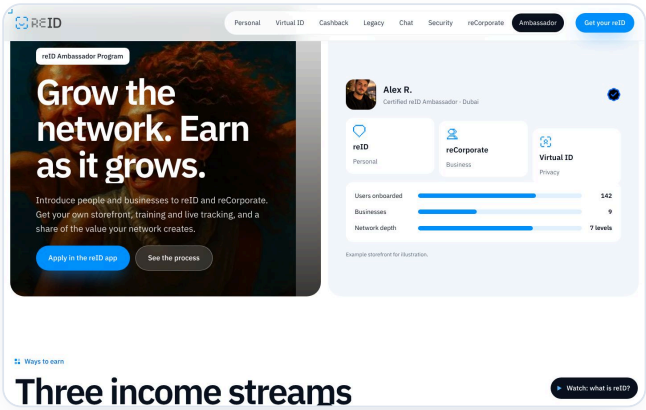

## Ambassador

Storefront and commissions through the network.

Pricing and Ambassador commission figures are not published on the site yet. Confirm before using numbers in ads.

# 07 Website tour for campaigns

| Link | Use for |
|---|---|
| reidentity.net | General awareness, bio links |
| reidentity.net/#personal | Consumer ads |
| reidentity.net/#wallet | Pay-to-name campaigns |
| reidentity.net/#security | Security / passwordless messaging |
| reidentity.net/#corporate | B2B outreach, LinkedIn |
| reidentity.net/#ambassador | Recruitment of Ambassadors |
| reidentity.net/#contact | Lead capture |
| reidentity.net/support | Customer help |

Add UTM tags to every campaign link, e.g. `?utm_source=linkedin&utm_medium=post&utm_campaign=launch`.

App tour

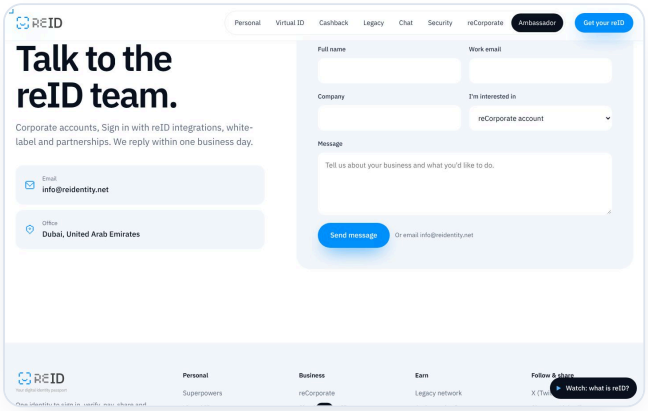

Pay to name@reid

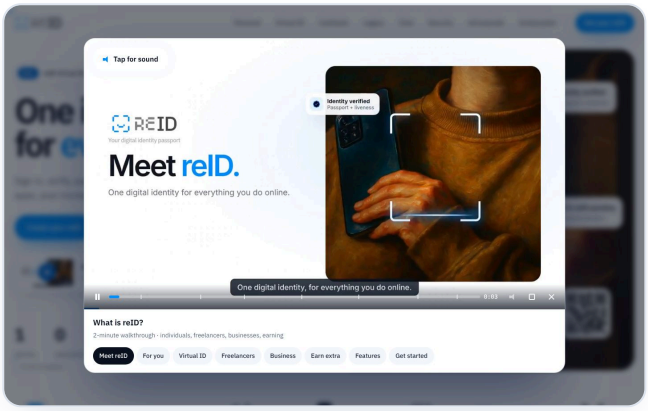

# 08 Lead capture & explainer

The contact form (name, email, company, topic, message) posts to `/api/contact` and lands in **info@reidentity.net**. Topics route enquiries: Personal, Business, Ambassador, Partner, Press, Other. AI agents can submit the same enquiry via the published OpenAPI file.

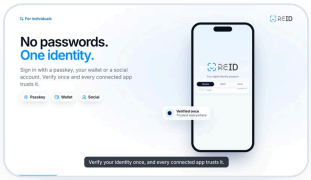

The 1:58 explainer opens on first visit and docks into a mini player. Use it as the hero asset for social: cut chapters into 15–30 s clips (individual, freelancer, business, earn).

Sign in without passwords. Verify once. Get paid to your name@reid.
Chat with verified people and earn cashback as your network grows.
For people, freelancers and businesses.
Watch the 2-min explainer → reidentity.net
```

## X / Threads

```
One identity. Zero passwords. Pay to a name, not an address.
reID is live → reidentity.net
```

## Instagram / TikTok caption

```
Stop re-typing passwords. Stop sending long wallet addresses.
One reID does it all — sign in, verify, pay, chat, earn. 🔐
Link in bio: reidentity.net
```

## B2B email

```
Subject: Verified company identity, staff roles and payouts in one place

Hi {name},
reCorporate gives your business a verified identity, role-based staff access,
and payouts to name@reid — from one dashboard.
2-minute overview: reidentity.net/#corporate
Happy to show you a live demo this week.
```

## Ambassador recruitment

```
Grow the network. Earn as it grows.
Get your own reID storefront, share it, and earn from every level of your network.
Apply → reidentity.net/#ambassador
```

## WhatsApp broadcast

```
reID is here: one secure ID to sign in, verify, pay and earn. 2-min video: reidentity.net
```

# 11 Objections & FAQ

| Question / objection | Answer |
|---|---|
| Is my data safe? | Biometrics stay on your device; data is encrypted; apps only get what you approve. No ad tracking. |
| Why verify my passport? | Once verified, you never upload documents again; partners get proof, not copies. |
| What if I lose my phone? | Recover your reID on a new device with verification; old devices can be removed. |
| Is the legacy network a scheme? | Earnings come from real activity and purchases, not sign-up fees. |
| How do I delete my account? | In the app or at reidentity.net/delete-account; data removed within 30 days except legally required records. |
| Can my business use it? | Yes — reCorporate adds company identity, roles, staff and payouts. |
| Can my app add Sign in with reID? | Yes, via OAuth 2.0 / OpenID Connect. Contact us for keys. |

# 12 Discoverability

| Channel | Status |
|---|---|
| Search engines | Full metadata, structured data, sitemap. Search Console submission not done (by request). |
| AI assistants | ChatGPT, Claude, Perplexity, Gemini, Copilot, Apple and Meta crawlers allowed; llms.txt + llms-full.txt published |
| AI agents | openapi.json lets agents send enquiries on a user's behalf |
| Social sharing | Banner, titles and descriptions per page; share buttons in footer |
| App stores | Privacy, Terms, Cookies, Delete account and Support URLs ready for listings |

Connect **reidentity.net** in Vercel before sharing. Links on the vercel.app address show the app icon instead of the banner in WhatsApp and LinkedIn.

# 13 Launch plan & KPIs

| Week | Actions |
|---|---|
| 0 — prep | Connect domain, mailboxes, test form, legal sign-off, cut 4 video clips |
| 1 — launch | LinkedIn + X + Instagram posts, WhatsApp broadcast, founder post, Ambassador briefing |
| 2 — B2B | reCorporate email to 50 target companies, LinkedIn outreach, demo calls |
| 3 — ambassadors | Ambassador recruitment push, storefront examples, referral contest |
| 4 — review | Read KPIs, refresh ad copy, add app-store links when live |

| KPI | Target (first 30 days) |
|---|---|
| Website visitors | Set baseline in week 1 |
| Explainer completion rate | ≥ 35% |
| Contact enquiries | Track per topic |
| Ambassador applications | Track weekly |
| reCorporate demos booked | Track weekly |
| App sign-ups (when live) | Track from store consoles |

# 14 Do's & don'ts

## Do

- Lead with the benefit: no passwords, pay to a name, verified once.
- Use real app screens and the explainer.
- Say "unlimited levels" for the legacy network.
- Link to reidentity.net with UTM tags.
- Keep the light, blue look.

## Don't

- Mention reAED or other ReSystem products in reID campaigns.
- Promise fixed earnings or returns.
- Publish commission numbers before they are confirmed.
- Use dark themes or stock hand-holding-phone photos.
- Share the vercel.app link publicly.
